WAL-CLEAN

HIGHLY CONCENTRATED, CHLORINATED LIQUID PRODUCES A HEAVY FOAM UNDER LIGHT AIR PRESSURE

CONCENTRATED

WAL-CLEAN is a high-foaming formulation, which produces 600 parts per million chlorine at a 50:1 dilution. This provides high-volume cleaning and optimum performance at a low-use cost.

CONVENIENT

WAL-CLEAN can be dispensed through a Hydro, or Lafferty, foamer which automatically dilutes, but also produces the high-foam characteristic required for optimum cleaning performance.

FREE RINSING

Selected surfactants and wetting agents in **WAL-CLEAN** provide excellent rinsing ability and rapid dissipation of foam.

TYPICAL APPLICATIONS

WAL-CLEAN is for use where dwell time is important or where the added boost of chlorine is required to remove grease, fats, oils, carbohydrates, and proteins. The high-density foam produced allows the various elements in **WAL-CLEAN** to remove soil deposits.

GENERAL DIRECTIONS

WAL-CLEAN is typically diluted 35:1 to 50:1 with water or about 2.5 ounces (74 ml) per 1 gallon (3.8 litres) of water. Hydro Foamer No. 860 or an Omni Clean Unit is the most efficient and cost-effective approach for using WAL-CLEAN.

SAFETY & HANDLING PROCEDURE

Wear goggles and gloves when handling this product. Keep out of reach of children. Do not add any other chemical to either the diluted product or the concentrated product, unless under the recommendation of your CH₂OTechnical Representative.

Daily testing is recommended to maintain proper control. Failure to monitor and maintain treatment levels can cause damage. It is the customer's responsibility to monitor and maintain treatment levels.

Seller Warranty

CH₂O brand test reagent refills are available through your sales representative at no charge. Customers are required to confirm product compatibility via a control test for their specific application. CH₂O recommends that you perform regular/daily testing to control chemical levels and cycles of concentration within established limits. Additional tests may be performed at your request. Test reports reflect conditions at the point when the analysis was performed. Results will change over time and with varying operating conditions.

Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose referred to in the directions for use when used in accordance with the directions under normal conditions. Buyer assumes the risk of any use contrary to such directions. Seller makes no other warranty or representation of any kind, express or implied, concerning the product, including NO IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS OF THE GOODS FOR ANY OTHER PARTICULAR PURPOSE. No such warranties shall be implied by law and no agent of seller is authorized to alter this warranty in any way except in writing with a specific reference to this warranty. The exclusive remedy against seller shall be a claim for damages not to exceed the purchase price of the product, without regard to whether such a claim is based upon breach of warranty or tort. Jurisdiction for any issues arising from or relating to this product shall be in the courts of the State of Washington and the venue shall be Thurston County. Any controversy or claim arising out of or relating to this contract, or breach thereof, shall be settled by arbitration in accordance with the rules and procedures as stated in RCW 7.06 and shall be binding upon both parties without right to appeal, and judgment upon the award rendered by the Arbitrator(s) may be entered in any court having jurisdiction thereof.

Applies to all products sold by CH_2O , Inc., and is hereby communicated to all of its customers as a condition of sale. Use of CH_2O products is subject to the Standard Terms and Conditions as listed on CH_2O , Inc.'s website at: www.ch2o.com.
