LICKETY STRIP NON-ABRASIVE, NON-CORROSIVE FIBERGLASS & PORCELAIN CLEANER

LICKETY STRIP is our heavy-duty cleaner concentrate specifically formulated to safely clean fiberglass and porcelain tubs, sinks, and shower stalls as well as porcelain tile and glass in your shower stall door.

LICKETY STRIP contains no harmful abrasives to scratch fiberglass and no corrosive agents to etch your porcelain or glass shower doors. **LICKETY STRIP** chemically alters the dried-on soap, dirt, and body oil residues that accumulate in the tub, sink, and shower and makes them easy to wipe away.

DIRECTIONS FOR USE

Simply dilute 1 part **LICKETY STRIP** with 2 parts water in a spray bottle. Shake well to mix. Spray the dilution of **LICKETY STRIP** evenly over the surface to be cleaned, making sure to thoroughly saturate the entire area. Allow product to remain on surface for 5 to 10 minutes before wiping with a sponge or cloth. Rinse area with water to wash final traces of dirt down the drain.

SAFETY & HANDLING PROCEDURE

This product is a mildly alkaline material. Safety glasses and impervious gloves should be worn when handling the concentrated product. Flush exposed skin with fresh water. For eye exposure, rinse for 15 minutes and contact a physician if irritation persists.
