6429 HYDRONIC LOOP TREATMENT

APPLICATION

CH₂O, Inc. HYDRO-TREAT products are designed to reduce iron and copper corrosion related to oxygen attack in closed loop hydronic systems. While no water treatment product can repair corrosion damage once it has occurred, continuous treatment can extend equipment life.

HYDRO-TREAT performance is dependent upon system operation, design, cleanliness, metallurgy, leaks and water chemistry. For optimal results, the following actions should be taken by operational personnel.

- Preclean system to prepare for treatment;
- Routine inspection to ensure no ingress of oxygen;
- Periodic biological testing and addition of biocides;¹
- Daily testing and recording of chemical residuals

If problems are encountered maintain product residuals, additional analytical testing may be required. At your request a CH₂O Water Treatment Specialist may assist in performing these services.

Product **6429** contains a blend of molybdate and silicate-based film-forming compounds, as well as corrosion inhibitors for yellow metals. This combination helps protect multi-metal systems from corrosion.

¹ Cooling Water Treatment Principles & Practice, Colin Frayne

SAFETY & HANDLING PROCEDURE

This product is an alkaline liquid. It can be safely handled using the standard precautionary procedures associated with industrial chemicals of this type. Wear eye protection and rubber gloves. Avoid prolonged or repeated contact with product.

FEEDING TECHNIQUE

Inject directly into the system or add via a bypass feeder.

DOSAGE

An initial dosage of 6 gallons per 1,000 gallons of water will yield 500 ppm sodium molybdate in the system. Subsequent additions of 1.25 gallons per 1000 gallons water will increase sodium molybdate residual by 100 ppm.

CONTROL

Maintain a residual of 500 parts per million sodium molybdate (Na₂MoO₄·2H₂O). Consult your CH₂O water treatment specialist for further information on testing. Daily testing is recommended to maintain proper control. Failure to monitor and maintain treatment levels can cause damage. It is the customer's responsibility to monitor and maintain treatment levels.

PHYSICAL PROPERTIES

pH of 1% Solution.....	9.5–10.5
Pounds per Gallon.....	9.2–9.7
Physical Appearance	Clear Liquid
Odor.....	None
Flash Point.....	NA

Seller Warranty

CH₂O brand test reagent refills are available through your sales representative at no charge. Customers are required to confirm product compatibility via a control test for their specific application. CH₂O recommends that you perform regular/daily testing to control chemical levels and cycles of concentration within established limits. Additional tests may be performed at your request. Test reports reflect conditions at the point when the analysis was performed. Results will change over time and with varying operating conditions.

Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose referred to in the directions for use when used in accordance with the directions under normal conditions. Buyer assumes the risk of any use contrary to such directions. Seller makes no other warranty or representation of any kind, express or implied, concerning the product, including NO IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS OF THE GOODS FOR ANY OTHER PARTICULAR PURPOSE. No such warranties shall be implied by law and no agent of seller is authorized to alter this warranty in any way except in writing with a specific reference to this warranty. The exclusive remedy against seller shall be a claim for damages not to exceed the purchase price of the product, without regard to whether such a claim is based upon breach of warranty or tort. Jurisdiction for any issues arising from or relating to this product shall be in the courts of the State of Washington and the venue shall be Thurston County. Any controversy or claim arising out of or relating to this contract, or breach thereof, shall be settled by arbitration in accordance with the rules and procedures as stated in RCW 7.06 and shall be binding upon both parties without right to appeal, and judgment upon the award rendered by the Arbitrator(s) may be entered in any court having jurisdiction thereof.

Applies to all products sold by CH₂O, Inc., and is hereby communicated to all of its customers as a condition of sale. Use of CH₂O products is subject to the Standard Terms and Conditions as listed on CH₂O, Inc.'s website at: www.ch2o.com.
