PEROX-CIDE
BROAD SPECTRUM BACTERICIDE / FUNGICIDE

APPLICATION

PEROX-CIDE can be used as a preventative treatment for growing plants, fruits, nuts and vegetables and for postharvest fruits, vegetables and other agricultural crops...

WATERBORNE PATHOGENS

Legionella bacteria and other pathogens may be present in water systems. Application of a microbicide does not guarantee the absence of such pathogens...

DIRECTIONS FOR USE

PEROX-CIDE works best when diluted with water containing low levels of organic or inorganic materials, and with water having a neutral pH. Thoroughly rinse out tank with water before mixing concentrate.

PEROX-CIDE works by surface contact with the plants and materials being treated. It is important to ensure that all surfaces are thoroughly wetted. PEROX-CIDE does not produce any visible residue, distinct odor or deleterious effects to plants...

General CHEMIGATION Requirements:

- 1) Apply this product only through a sprinkler including a center pivot, lateral move, end tow, side wheel roll, traveler, solid set, hand move, flood basin or drip trickle irrigation system.
2) Crop injury or lack of effectiveness can result from non-uniform distribution of treated water.
3) Ensure that the irrigation system used is properly calibrated.

DIRECTIONS FOR USE...continued

- 4) Do not connect an irrigation system (including greenhouse systems) used for pesticide application to a public water system unless proper safety devices for public water systems are in place.
5) A person knowledgeable of the chemigation system and responsible for its operation, or under the supervision of the responsible person, shall make any necessary adjustments should the need arise.

Application Instructions:

- 1) Remove scale, pesticide residues and other foreign matter from the chemical supply tank and entire injector system. Flush with clean water.
2) Determine the treatment rates as indicated in the label directions for use and make proper dilutions.
3) Prepare solution in the chemical tank by filling the tank with the required water and then adding the PEROX-CIDE required.
4) PEROX-CIDE should not be applied in conjunction with any other pesticides or fertilizers...

Refer to the product label for specific requirements before use of this product.

FEEDING TECHNIQUE

Refer to the product label for the feeding technique specific to the desired application site.

SAFETY & HANDLING PROCEDURE

PEROX-CIDE is corrosive. The concentrate causes irreversible eye damage and skin irritation or temporary discoloration on exposed skin. It may be fatal if swallowed or absorbed through skin.

DOSE & CONTROL

Contact your CH2O water treatment specialist or an independent laboratory for further information on analytical testing. Daily testing is recommended to maintain proper control.

ACTIVE INGREDIENT

Hydrogen Dioxide 27%

PHYSICAL PROPERTIES

pH of 1% Solution..... 2 - 3
Pounds per Gallon..... 9.0 - 9.5
Physical Appearance..... Clear, colorless liquid
Odor..... Moderate, vinegar-like

Seller Warranty

CH2O brand test reagent refills are available through your sales representative at no charge. Customers are required to confirm product compatibility via a control test for their specific application.

Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose referred to in the product data sheet. Buyer is responsible to ensure that products and product dosages are appropriate for Buyer's particular application.

Applies to all products sold by CH2O, Inc., and is hereby communicated to all of its customers as a condition of sale. Use of CH2O products is subject to the Standard Terms and Conditions as listed on CH2O, Inc.'s website at: www.ch2o.com.
