IVR-CLEAR HARD WATER DEPOSIT REMOVER AND METAL CLEANER

APPLICATION

CH₂O's **IVR-CLEAR** is a fast acting metal cleaner that strips away stains, soils, and metal deposits leaving a fresh clean surface. It is exceptional for removing hard water deposits and for cleaning iron, copper, aluminum and other alloy metals. **IVR-CLEAR** is also an outstanding product for removing water spots from glass.

DIRECTIONS FOR USE

IVR-CLEAR may be used full strength or diluted to an appropriate strength with water. Recommended Dilution Rates:

<u>Deposit Level</u>	<u>IVR-CLEAR: Water</u>
Heavy Build-up	1:10
Medium Build-up	1:20
Light Build-up	1:30

For best results, spray **IVR-CLEAR** on the surface to be cleaned by any convenient method. Contact time will vary depending upon the severity of the area to be cleaned. Rinse with cool water. This will leave an oxide-free surface in a "like-new" condition.

For Glass: Use caution when applying **IVR-CLEAR** in the sun. Wet down all surfaces to be cleaned and the drip zone with cold water. Apply **IVR-CLEAR** by spraying or with a damp sponge, starting from the bottom and working up the glass. Scrub with a green scrub pad for 30 seconds to 1 minute before rinsing off the surface and squeegee dry. Repeat these steps as needed until all water spots or scale is gone. Never let **IVR-CLEAR** dry on glass!

SAFETY & HANDLING PROCEDURE

This is an acidic product. Impervious gloves should be worn when handling, as prolonged or repeated exposure can cause irritation and/or burns. If a potential for eye exposure exists, safety glasses should also be worn. Read the Material Safety Data Sheet for additional handling and first aid directions.

PHYSICAL PROPERTIES

Appearance.....	Colorless Liquid
Odor.....	Mild
pH of 1% Solution	1.0-3.0
Pounds per Gallon	9.7-10.2

Seller Warranty

CH₂O brand test reagent refills are available through your sales representative at no charge. Customers are required to confirm product compatibility via a control test for their specific application. CH₂O recommends that you perform regular/daily testing to control chemical levels and cycles of concentration within established limits. Additional tests may be performed at your request. Test reports reflect conditions at the point when the analysis was performed. Results will change over time and with varying operating conditions.

Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose referred to in the product data sheet. Buyer is responsible to ensure that products and product dosages are appropriate for Buyer's particular application. Seller makes no other warranty or representation of any kind, express or implied, concerning the product, including NO IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS OF THE GOODS FOR ANY OTHER PARTICULAR PURPOSE. No such warranties shall be implied by law and no agent of seller is authorized to alter this warranty in any way except in writing with a specific reference to this warranty. The exclusive remedy against seller shall be a claim for damages not to exceed the purchase price of the product, without regard to whether such a claim is based upon breach of warranty or tort. Jurisdiction for any issues arising from or relating to this product shall be in the courts of the State of Washington and the venue shall be Thurston County. Any controversy or claim arising out of or relating to this contract, or breach thereof, shall be settled by arbitration in accordance with the rules and procedures as stated in RCW 7.06 and shall be binding upon both parties without right to appeal, and judgment upon the award rendered by the Arbitrator(s) may be entered in any court having jurisdiction thereof.

Applies to all products sold by CH₂O, Inc., and is hereby communicated to all of its customers as a condition of sale. Use of CH₂O products is subject to the Standard Terms and Conditions as listed on CH₂O, Inc.'s website at: www.ch2o.com.
